Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle-wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely *free* if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

CHURCH PROPERTY TO BE TAXED

In an opinion delivered by Judge Rogers yesterday the Maryland Court of Appeals, at Annapolis, decided the case of the Mayor and City Council of Baltimore and others against the ministers and trustees of the Starr Methodist Protestant Church. The order passed in the case making the injunction perpetual was reversed, the bill dismissed and the injunction dissolved. It is an appeal from a decree enjoining Henry Williams, city collector, from selling for state and municipal taxes certain wharf property in Baltimore city, the incomes, rents and profits of which belong to the appellees, and further enjoining the Mayor and City Council and the Appeal Tax Court from assessing such property.

The property in question was devoted to the use of the appellees by a certain Wesley Starr, late of Baltimore city, who expressed in his will a desire that the church should never engage in entertainments, festivals, lotteries, etc., for the purpose of raising money. By chapter 263 of the acts of 1904 the legislature in terms exempted this property from taxation. The Appeal Tax Court of Baltimore city retained this property on its tax books and the city collector advertised the property for sale, the taxes being unpaid.

The suit, therefore, is to determine the constitutionality of the act of exemption. In discussing the question the opinion quotes article 15 of the bill of rights, which provides "that every person in this State ought to contribute his proportion of taxes for the support of the government, according to his actual worth in real or personal property."

"The act of 1904," it says, "palpably, by reason of its exemption, attempts to overthrow this salutary principle and to substitute a novel and experimental scheme, which, if suffered to obtain a foothold, will inevitably lead to ruinous consequences."

The opinion states that the Court of Appeals does not rule that the power to grant exemptions for sufficient reasons does not exist in the legislature, but that this power does not extend to a nullification of the constitution.

It further decides that such exemptions must apply to all cases of a certain class and not to isolated cases, any exemption in the present case being an instance of plain inequality of taxation.

Charges Against a Clergyman.

Walter Swinburne Hancock, formerly in Episcopal clergyman of a fashionable church in Chicago, whom his bishop inhibited on account of scandals with women, is under police surveillance in London. Among the charges brought against Hancock while he was in Chicago was one to the effect that he was a "man of evil repute." also that he was given to consorting with lewd women. He is suspected of having poisoned his wife, who was the widow of Paul Townsend Jones, of New York allegations to that effect having been made in the Kensington Corner's Court at an inquiry now being held.

Mrs. Hancock died on March 23 last, the cause of death being certified as appendicitis. Afterwards the body was exhumed on account of the suspicions of her son, who is a barrister. He testified at the inquest, intimating strongly that he thought Hancock poisoned his wife in order to obtain her property. Other witnesses testified that Mrs. Hancock had drawn a will giving everything to her son, but when she attempted to sign the document on her death bed she collapsed.

The inquest was adjourned until July 11, for the purpose of having an analysis of the contents of the stomach made. Meanwhile, Hancock has been placed under police surveillance.

Hancock's Chicago troubles occurred in 1897. He resided at the Virginia Hotel, in that city, and claimed relationship to Lord Castlemaine. Hancock is the son of a stonemason. He went to America in the early 80s, and held several pastorates, including St. John's, Montreal. He married Miss Grace Jones while visiting in New York, in 1897.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Another Cleopatra.

Mrs. Rose Bloom, said to be a member of a prominent Paducah (Ky.) family, is at death's door, with the upper part of her body swollen to frightful proportions, as the result of an attempt to emulate Cleopatra, the Egyptian queen, who, in ancient history, is credited with clasping the deadly cobra to her bosom as balm to wounded feelings after a love episode with Marc Antony.

Mrs. Bloom went to Obion several days ago from Union City, accompanied by her husband. Mr. Bloom has been missing for several days, and yesterday when doctors were called in to attend Mrs. Bloom for convulsions, they found a live reptile in her room and the woman in a semi-conscious state.

She said she did not care to live longer, and that she had driven into the country for the purpose of obtaining the poison spreading adder, a species of native snakes, whose bite is considered fatal. The woman had placed the snake in her corsage, and her body had been penetrated several times by the fangs of the reptile.

AND VIRGINIA ADVERTISER

FRIDAY EVENING, JUNE 28, 1907.

RECENTLY some boys and young men have been annoying females who live on the outskirts of Bloomfield, N. J., by divesting themselves of their clothing and bathing in public. The place selected by the bathers is near a much-frequented road, and ladies passing in carriages have been compelled to turn their backs while passing the place. A few days ago a determined woman made arrangements for bringing the immodest conduct of the bathers to an abrupt close. She procured a whip, entered a carriage and drove to the place occupied by the swimmers. Several of them were in the water and others, in a state of nature, were walking on a bridge. The woman stopped the carriage, armed herself with the whip and walked up to one of the larger of the nude bathers and before he could realize her purpose, the indignant woman was plying the lash vigorously upon his unprotected body. Twisting and writhing, the fellow dropped from the bridge while the other bathers, who had been treading water, jeered him. The woman subsequently got in the buggy and drove to Bloomfield.

IN REFERENCE to the imposition of fines upon the big corporations for violating the laws of the State and country, the Philadelphia Record makes the following sensible observations:

Fines amounting to twenty million dollars would not be so very heavy a burden to the Standard Oil. Small fines mean no more to it than a ten dollar fine means to an automobilist who can pay $5,000 for a machine and would cheerfully pay $50 for the fun of running it on a highway like a railway train. The Standard Oil is worth anywhere from five to seven or eight hundred million dollars, besides the vast fortunes of the separate members of the "Standard Oil crowd." Many railroads have been punished for granting rebates, but the rebate is extorted from the railroad company by the shipper. The railway shareholder is muleted twice—once when a part of his profits is returned to the shipper and again when the government prosecutes his company for rebating. The real culprit is the shipper, and the worst of the culprits is the Standard Oil, which extorts rebates by threats of pipe lines.

WAS THE loss of the battleship Minnesota's launch with six midshipmen and five seamen an act of providence or an accident? The question came near breaking up the regular weekly meeting of the Methodist preachers of Norfolk and its vicinity, and is still undecided. Rev. Dr. W. G. Starr, pastor of the big Cumberland Street Church, in his sermon last Sunday night held that it was an act of providence. Rev. J. H. Amiss attacked that view in the meeting. Argument waxed warm—warm to the point, it may be said, of considerable feeling. Neither side would give in and the disputants are as firm in their respective opinions as ever. Some of the greatest men that have appeared in the world have been fatalists. In fact it is an inborn instinct in a certain percentage of the human race.

WHEN the divorce case of Ferdinand Enzien was called before Judge Brown in Pittsburg, yesterday, Enzien had a new excuse for wishing to be separated from his wife. He declared that she was too fond of club life, and insisted on his remaining at home and taking care of their six children. Enzien said that not long after they were married his wife joined a club. She kept on joining until there wasn't an afternoon or evening in the week that she did not have to attend a club meeting. The children, he said, were left alone in the afternoon, and in the evening he would have to attend to them, while he surrendered his latchkey to the wife. Ladies of the various bridge clubs should take warning.

THAT A period of moderate "hard times" is the only cure for present condition of business and needed to teach business men thrift and caution was the startling declaration of E. O. McDougal, of Buffalo, president of the State Bankers' Association, which began its fourteenth annual convention at the Thousand Islands, N. Y., yesterday. Business at present, he insisted, is not on a sound basis. The only thing to prevent a serious depression is to get it back on a conservative basis. Mr. McDougal pleaded for retrenchment. He said: "We are in an era of extravagance in enterprise and extravagance of expenditure. At least a moderate amount of what is popularly known as hard times is the only cure."

THE PLATFORM adopted yesterday by the democrats of Pennsylvania pledges the party to a searching investigation of the auditor general's office, and demands the speedy prosecution of those responsible for the alleged frauds in furnishing and equipping the capitol. The investigation will do no good and will bring nothing more to light than is already known—that the republican leaders in Pennsylvania, who were in office, robbed the State of millions of dollars in building the capitol. This was known before the last election but the republicans again swept the State. The people of Pennsylvania like to be robbed, or the honest men there are so helplessly in the minority as to be unable to help themselves.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, June 28.

Trade of the United States with her Latin-American neighbors aggregated six hundred and ten million dollars in the fiscal year ending with the present week, against but little more than 230,000,000, dollars a decade ago. In both imports and exports the percentage of increase is greater than that with the remainder of the commercial world. This is the announcement made today by the bureau of statistics. Of $610,000,000 trade, $360,000,000, are imports and $250,000,000, are exports. In the decade, imports from Argentina have increased 60 per cent. and the exports to that country more than 400 per cent. The imports from Brazil increased less than 50 per cent. and the exports to that country 44 per cent. The imports from Mexico have increased 200 per cent. the exports there to 175 per cent. The imports from Central America have increased 80 per cent. and the exports thereto 225 per cent.

The section of the federal statutes under which E. H. Harriman was arrested yesterday for infraction of the rules of the Yale-Harvard boat race, is as follows: In order to provide for the safety of passengers on excursion steamers, yachts, oarsmen and all craft, whether as observers or participants, taking part in regattas, amateur or professional, that may hereafter be held on navigable waters, the secretary of the treasury be and is authorized and empowered in his discretion to detail revenue cutters to enforce such rules and regulations as may be adopted, etc." The rules laid down for the government of the races now being held at New London contain the following provision: "Penalties for non-observance of the rules will be such as may be prescribed by competent authority." It is stated at the department of commerce and labor, which prepared the rules for the races, that the "competent authority" in this case would be the collector of customs at New London. The general steamboat laws of the United States fix a penalty of not more than $500 for violation of any of their provisions. Revocation of the license is also authorized.

What promises to be a gigantic financial struggle was begun today, when the American Bankers' Association filed with the Interstate Commerce Commission a complaint against the express companies of the country, charging them with placing the members of the association at an undue and unreasonable prejudice and disavantage by engaging in a financial business, in addition to that of common carriers, in violation of the Interstate Commerce law. The express companies named are the American, the United States, the Pacific, the Adams, Wells Fargo, the Southern, and the Great Northern. It is set forth that there are 7,500 bankers in the complaining association. The complaint calls upon the commission to issue an order compelling the express companies to desist from continuing their "banking" business. In the complaint, it is alleged that the express companies are now, and have been for a long time, dealing in exchange, both foreign and domestic, in the form of money orders, letters of credit, both traveler's and commercial traveler's checks and drafts, all of which has always been the proper, legitimate, and long recognized business of and functions of banks. It is claimed the express companies have encroached further upon the bankers, business by buying and selling foreign money and transferring money by cable and mail. All of this, the bankers set-forth, the express companies by reason of their renting large space in railroad cars, are able to do at much lower rate than the bankers.

The race war which threatens to disrup the officials of the Supervising Architect of the Treasury Department has reached Assistant Secretary Winthrop. The facts in the recent fisticuffs between W. P. Ryder, of Maryland, and H. D. Woodson, a negro from South Carolina, recently sent to the draughting room by the Civil Service Commission, were laid before his superior by Supervising Architect Taylor. It is said to be the belief of high officials that the appointment of another negro as draughsman, without the department providing a Jim Crow reservation for them, may result in a majority of the white draughtmen leaving the department. Feeling is intense over the presence of two workmen.

The Navy Department has granted permission to Admiral Baron Yamamoto, of the Imperial Japanese navy, who, with five other high naval officers, is expected to reach New York July 8 to visit the navy yards of the United States. He has just finished a tour of inspection of similar establishments in Europe. He will remain in this country about a month.

Commissioner of Labor Neill has returned to New York, presumably in connection with the troubles between the telegraphers and their employers.

The briefs of the independent watch concerns against the so-called watch trust were presented today to M. D. Purdy, assistant to the Attorney General, by Attorney General Wade Ellis of Ohio and A. L. Sackett, representing the Deuher-Hampden Company of Canton, Ohio. The briefs of the opposition have already been submitted.

Today's Treasury statement shows: Receipts $3,865,050; expenditures $2,440,000. The United States Treasury, at the close of the fiscal year tomorrow night, will show an accumulated surplus of $85,000,000, an increase of $60,000,000 for the year. Treasurer Treat does not anticipate any radical recession.

Commissioner of Corporations Herbert Knox Smith today received from President Roosevelt a letter transmitting the complaint of the Washington Central Labor Union that the telegraph companies are operating a combination in restraint of trade in violation of the Sherman anti-trust act. The commissioner declined to discuss the matter, but it is said that a preliminary inquiry will be made, to be followed by a formal investigation if the facts elicited should warrant it.

A dose of ginger was injected into the naval service today by Secretary Metcalf through the issuance of an important general order. It calls upon every officer of the navy to put on his thinking cap and submit ideas for the improvement of that branch of the country's defense. The order reads as follows:

"The Department will refer these suggestions to competent authorities for conderation and recommendation. When suggestions of an officer are approved and recommended to the Secretary for adoption, an entry to that effect will be made on the officer's record and the officer notified to that effect." This order, as generally interpretated by naval officers stationed in Washington, means that the Secretary is determined that all shall lay aside their "hammers," quit "knocking," and pull harmoniously together. A special board will shortly be created to consider the suggestions. The biggest problem of the navy just now is how to obtain enough sailors to man the ships.

News of the Day.

The body of Charles Fulbert, violinist, of San Antonio, Tex., was found in the ruins at Pine Beach yesterday.

Governor Hughes, at the Hotel Astor, New York, has chosen the members of the Public Utilities Commission for New York city. It is said all have accepted.

Birmingham, Ala., suffered a quarter of a million dollar fire this morning, probably resulting from a cigar stump. The Chalifoux building was destroyed, together with a new structure, half completed, adjoining it.

The New York police have practically given up the attempt to determine how the corpse of John Nelson came to be thrown from the window of the Third avenue New York trolley car on the eastern Brooklyn Bridge approach late Wednesday night.

John D. Rockefeller, H. H. Rogers and other Standard Oil magnates were yesterday summoned by the United States District Court of Chicago to appear and give such information as the government attorneys may desire. A total of 5,530 counts stand against the corporation, making possible maximum fines of over $81,000,000.

Eight hundred men returned to work yesterday on the new warehouse which is being erected for Montgomery Ward & Co., in Chicago after a strike lasting nearly a month. Carpenters who were on strike refused to accept the terms offered, and will remain out. Electricians and carpenters quarreled over the right to cut holes in the structure for wiring purposes. It is estimated that the contractors lost $25,000, while the strikers lost nearly $100,000 in wages.

A most extraordinary hailstorm, in which hailstones as large as baseballs fell, took place at Millard, Neb., Wednesday night. Three men were knocked senseless during the storm, and later graders at a railroad camp played ball with the hailstones, using singletrees as bats. The storm came up at sundown and raged for half an hour. Union Pacific grading camp, on the edge of the town, suffered severely, the tents being cut into ribbons and three of the graders knocked senseless while running to cover. Other graders were struck by the stones.

A dispatch from Victoria, British Columbia, says a horrible holocaust is reported in mail advices from Hongkong, where 500 Chinese of the audience of a Chinese theater and ten of the actors were burned to death when the native theater was destroyed by fire. The flames spread rapidly and the building collapsed, blocking the entrance with burning debris. The origin of the fire is said to have been due to the igniting of explosives concealed under the floor of the theater, the fire following the explosion.

The Rev. Thomas C. Darst, rector of St. Mark's Church, Richmond, has declined the call recently extended to him to the rectorship of St. John's Church, Wilmington, N. C.

Influential capitalists, laboring under the impression that there is an ice trust in Richmond, are working together with a view of establishing in that city an ice plant with a capacity of eighty tons per day.

Mr. Harry L. Lemon, of Fauquier county, and Miss Bela E. Painter, daughter of Samuel R. Painter, of Unison, were married yesterday at the bride's home by Rev. I. B. Lake, of Upperville.

Mr. Arthur Conner, of Washington, and Miss Anna Sutherland Crissey, daughter of John Crissey, a well-known citizen of Leesburg, were married Wednesday evening in the Methodist Episcopal Church by Rev. William L Dolly.

During a storm Wednesday, lightning struck a saw mill engine belonging to Mr. W. T. Wine, near Orlando, Prince William county bursting the boiler of the engine. Mr. Wine's little boy was near the engine at the time, and he was seriously injured by a flying fragment.

The county jail at Goochland Courthouse was broken open from the outside Wednesday night and two prisoners were released. The escaped prisoners were William Freeman, colored, under indictment for stable and barn burning, and Eugie Johnson, colored, under indictment for first degree murder.

Mr. S. T. Hulsey, U. S. recruiting officer, who has been in Fredericksbug for the past three months, has only secured two recruits, Geo. H. Bryant, of Stafford, and Chester C. Van Auken. They were sent on to headquarters in New York, but failed to pass the examination and were sent back Tuesday morning.

John G. Harman of Columbia county was nominated for State treasurer of Pennsylvania yesterday by the democratic State convention on a platform confined to State issues. Harman is a former member of the legislature. The resolution committee tabled a motion indorsing W. J. Bryan for the democratic nomination for President in 1908.

At New London, Ct., Yale's varsity crew yesterday won a hard-rowed race against Harvard on the Thames river just as dusk was falling by not much more than a length. The race, apparently, was won in the last half mile, in which the better form of the Blue, on perfectly calm water, proved a more powerful factor than the brawn in the Harvard boat. The official time was: Yale, 21:10; Harvard, 21:13.

Prince William county is excited over the presence of a large wild cinnanmon bear, which has been running at large since Monday afternoon. The first discovery of the beast was by a little colored girl, who lives about five miles southwest of Nokesville, near Aden postoffice. The child was on her way home, and in passing through a piece of heavy timber she saw the bear coming down a huge pine tree. She ran and gave an alarm, but at last accounts the bear had not been caught.

THE LOVING TRIAL.

The State had its best inning yesterday at Houston in the Loving murder trial, the introduction of an expert alienist to show the condition of Judge Loving having the effect of offsetting the contentions of Dr. Charles M. Emmons, the noted alienist of Washington. Not only did the State offer the expert, but it presented several witnesses who had known the accused man for many years, and they each had opinions of the very highest order concerning his physical and mental condition.

There will be no trip by the jury, the lawyers, and others to Nelson county to view the scenes of the case. Lawyers for both sides say they see no reason for this, as the witnesses have told all that is necessary to make the jury familiar with the tragedy.

The State called several new witnesses who had known Loving for years. The object of the testimony of the witnesses in rebuttal was to disprove the insanity theory and to show that Judge Loving was regarded as a man of unusual intelligence and great physical development.

E. L. Kidd, county clerk for Nelson, an uncle of Estes, said that he was clerk of the county court when Judge Loving presided over it, and that he regarded him as a very high man and a good judge. He had never seen Loving take a drink. It was at Mr. Kidd's home that Miss Loving spent the night after returning from the drive.

Others followed along the same general lines as to the mental and physical faculties of the accused man, all of them expressing the opinion that he was perfect in both respects.

This concluded the evidence for both sides, save that the State announced that an alienist would be introduced to show that Loving was in perfect possession of all his faculties. This expert was Dr. J. S. De Jarnette, superintendent at the Western State Hospital.

The State presented a hypothetical question, reviewing the case now on trial, and asked what was his opinion as to the condition of the mind of a man described in the question. Dr. De Jarnette did not hesitate to say that to his mind the man described was given to fits of great anger, but was not in the least insane.

This is in direct contradiction of the views of Dr. Emmons, whom the defense introduced yesterday and who positively pronounced Judge Loving as man whose brain was diseased.

John L. Lee, of Lynchburg, of counsel for the defense, took charge of the witness and began a terrific bombardment with questions which were designed to weaken his statement. He asked for a definition of insanity, but the reply was that every man who made it a study had his own conception of what was, and what was not insanity. Insanity was a disease of the brain. Excessive use of intoxicants might produce insanity, when there was heredity, but rarely would intoxicants when used moderately have that effect unless predisposed by heredity.

"The man who was addicted to drink for a long time," said Dr. De Jarnette, "and was known to have quit for twelve years, only twice losing control of himself in all that time, is to my way of thinking a remarkable man. It showed unusual will control and splendid will power. I would say that such a man was very strong and very bright."

This concluded the evidence, the court adjourning for the day. The instructions today will be disposed of by noon and at the afternoon session the arguments will begin. A verdict is believed possible Saturday night.

Houston, Va., June 28.—Court convened at 10 o'clock, and there was a delay of some time due to the attorneys' failure to complete last night their requests for instructions.

Judge Barksdale discharged the jury until 2 o'clock.

The afternoon session will be taken up in a legal battle over instructions.

Argument over the instructions by the court to the jury began this afternoon. It will be either late today or tomorrow before the attorneys begin their final arguments.

The defense offered 17 instructions and the prosecution 18. The defense vigorously objected to one instruction, stating that the unwritten law has no place in the jurisprudence of Virginia.

It was characterized as an unnecessary reference. Each side found many objection to instructions submitted by the other. The Judge took them all under advisement.

The friends of the dead man are very much put out that they were not allowed to have a chance to clear his name of the crime with which Judge Loving's daughter accuses him.

Witnesses for the prosecution state that they could have established that Miss Loving has been for some time addicted to the use of liquor, and that she was expelled from the Mary Baldwin Seminary, at Staunton, for her conduct.

They further claimed that the affectionate relations said to have existed between Judge Loving and his daughter were all a farce, that he was brutal in his home, and at one time had been seen to jerk his daughter off of a horse in the streets of Lovingston and curse her.

It is claimed that Judge Loving had a personal spite against the young man he murdered, because Thomas F. Ryan had stated his intention of discharging Judge Loving at the end of the present year and putting Estes in his place.

The trial has been delayed on account of the defense not having been able to complete their instructions last night, as they had expected to do.

Judge Barksdale discharged the jury until 2 o'clock. The expectations of finishing the trial by Saturday night are beginning to fade away, and it will probably be Tuesday before the jury renders its decision.

Widowed Twins to Marry.

Toledo, June 28.—"Licensed to wed—Louis J. Schultz, 47, dairyman, Washington township, to Rosa Schultz, 46, Toledo." That's the way it looks on the record of marriage licenses at the Court House; but that staid old book did not tell the whole story. Rosa met Louis's twin brother and married him. Louis met Rosa's twin sister and married her. Then Rosa's twin sister died. She was followed to the grave shortly after by Louis's twin brother. Of the twins all that was left was a widow and a widower. Louis sought solace in the big book at the Court House, and will wed the relict of his dead twin brother; and Rosa will find the former husband of her twin sister a comforting thought.

Today's Telegraphic News.

Judge Barksdale Threatened.

[Special Dispatch to the Alexandria Gazette.]

Richmond, Va., June 28.—A special from Houston this morning says Judge Barksdale is in danger. He has received a letter dated New York and signed "Black Hand" which threatens to blow him and every body in court up if Loving is not hanged. The communication is crudely written and is full of vulgarisms, including the adjective "damn." It charges Miss Loving with falsehood and also recommends hanging her. The letter contains atrocious words some being almost unrecognizable. The writer says a Black Hand agent is in Houston and 700 people are behind him ready to blow the town into kingdom come if necessary. The sender has seen fake pictures in Gotham yellows and he thinks the girl prevaricated to save her father. The communication suggests negro authorship. It ends with a wretchedly drawn picture of two black hands. Barksdale, undaunted, laughed heartily at the threats.

Action Against Standard Oil.

Findland, O., June 28.—The jury in the Standary Oil case has reported that it was unable to agree and has been discharged.

Chicago, June 28.—Abject surrender to the demands of Judge K. M. Landis will be offered, it is expected, to the government today by attorneys for the Standard Oil Company. Providing the government will not seek to serve the subpoenas or force the appearance of John D. Rockefeller, H. H. Rogers and other oil magnates in court, the trust attorneys will agree to furnish the desired information and vouch for its authenticity. Whether this capitulation will be accepted is another question.

Preparing Drastic Measures.

St. Petersburg, June 28.—Premier Stolypin is preparing to inaugurate a new repressive programme even more vigorous than his previous efforts to stamp out the revolution in Russia and bring the disorderly element into submission.

Emperor Nicholas and members of the imperial family will leave Peterhoff shortly for a cruise in the royal yacht through the fiords of Finland. Premier Stolypin will accompany the Czar, and his plan will then be outlined in detail. No hint of the new programme has been given beyond an intimation that it will provide for the most drastic measures yet used to quell the revolutionists and terrorists.

The Haywood Trial.

Boise, Idaho, June 28—Wm. Easterly, one of the most prominent figures among the unionists in the days of labor trouble at Cripple Creek, is undergoing a gruelling cross examination by Senator Borah for the prosecution in the Haywood case today. Easterly was the last man on the stand when court adjourned last night. He denied Orchard's accusation that he experimented with the latter to determined whether a revolver shot properly directed would explode giant caps, or that the union men were responsible for any of the slight disturbances in the Cripple Creek district.

Hurricanes and Tidal Waves.

Sydney, N. S. W., June 28.—News of a second hurricane accompanied by tremendous tidal waves to sweep over the Caroline Islands inside of a few months was brought today by the German steamer Germanic. Over 200 deaths are reported. The storm swept across many of the group, devastating them completely. The hurricance first destroyed practically all the houses in the islands. When the tidal wave followed the victims only saved themselves by flight to the hills or clinging to trees. The first disaster occurred about Easter time, causing several hundreds deaths.

After Undesirable Italians.

New York, June 28.—A thorough cleaning of the upper East Side of Manhattan will be the result of the murder of Viola Boylan, whose body was found yesterday in the celler of her parents' home. Today the crusade to drive out lawless Italians of the class blamed for the outrage and murder of the little girl is on in earnest. First steps to accomplish this were taken last night when several mass meetings were held in the community. There were many bitter speeches made and threats of what should be done to men of the despired class.

Ice Wagon Drivers Strike.

New York, June 28.—New York is facing a midsummer ice famine, with all its attendant suffering. Today the drivers of the American Ice Company refused to go to work and tied up every wagon of the company. Two thousand men are affected by the strike which was called as a result of the refusal of the company to recognize the business agents of the ice wagon drivers' union. The men want certain grievances corrected. Central Manager Brevier has refused to treat with the business agents and the strike was accordingly called.

Rescue of Workmen.

New York, June 28.—Numerous deeds of rare heroism marked the rescue of 100 workman trapped by fire early today in the new Pennsylvania tunnel under the East river. Through the bravery of companions, who stood at posts of danger until the last man had been taken from the tunnel, all but four escaped without injury. Of the men who were hurt all will probably recover. One hundred men were in the tunnel when the fire started.

Collision.

New York, June 28.—Struck broadside on by the schooner Maud Palmer, the steamship Giulia sustained slight damage while two miles off Nantucket Light Thursday. A panic ensued among the Giulia's passengers, who rushed on deck, fearing the steamship was sinking, and were only quieted with much difficulty. Captain Cherubim of the Giulia says the collision was due to the dense fog and a mistaken signal.

Today's Regatta.

Navy Yard, New London, Conn., June 28.—Harvard won the freshman eight-oared race today getting away with a clear three-quarters of a length to the good. The official time was: Harvard, 11:15; Yale, 11:19.

Yale won by fourteen lengths in the Varsity four race. The official time was: Yale, 12:33; Harvard, 13:15.

How to Care for Babies.

New York, June 28.—John D. Rockefeller has undertaken to teach New York mothers how to care for their babies. "Instead of giving lots of time and care to an individual child, why not teach the mother how it should be done, so that she may care properly for her entire flock?" the old king said.

The plan, according to F. D. Green, of the association, is to hire twenty nurses, ten to be stationed on the institute grounds and ten to visit mothers in the latter's own homes to explain rules for treatment of the young Mr. Rockefeller has particular confidence in open air and cleanliness and these points will be especially emphasized. The oil magnate will bear expenses of the experiment.

Oppose Use of Elk Teeth.

Chicago, June 28 —A battle royal is expected to occur at the coming convention of Elks in Philadelphia next month over the question of prohibiting the members of that order from wearing as badges the teeth of the noble animal from which the order takes its name. The chief opponent of the practice is Grand Exalted Ruler Judge Henry Melvin, who, aroused over the wanton slaughter of the animals, has sent to every Elks' lodge in the country a stirring appeal for the unprotected elks of the wild, and hopes that enough delegates will be instructed to vote for his measure at the convocation to make it a law. Many members agree with their grand exalted ruler in his view of the situation.

Pays for Loyalty with Life.

Newark, N. J., June 28.—Lorenzo Maglio, 41 years old, shot and killed his sister-in-law, Marialana Maglio, 23 years old, of No. 25 Drift street, in the presence of two other women, yesterday afternoon. Four shots struck the woman. Maglio threatened the life of his brother's wife Wednesday night and she had complained to the police. She was nursing her babe when he appeared and only had time to place her child on a table when he began firing. She fell dead at the first shot. The police, after an investigation, said Mrs. Maglio sacrificed her life for her loyalty to her husband and in defense of her honor. She had regeateely repulsed her brother-in-law.

Hung Aloft In His Sleep.

Reading, Pa., June 28.—Elmer, an 8 year-old son of Richard S. Bitler, of Shillington, in his sleep crawled out of a window and his moans were heard by an invalid sister and perhaps saved his life. His father was called and grasped the son just as he was about to drop to the ground, 25 feet. He was hanging by the tips of his fingers at the ledge of the third-story window.

He could not explain his presence at the window, as he said he was not dreaming.

Wife Murderer Executed.

Columbus, O., June 28.—James W. Cornelius, of Canton, wife murderer, was electrocuted early today. Cornelius chose an undertaker and arranged full plans for his own funeral.

New York Stock Market.

New York, June 28.—The stock market opened strong with advances ranging from ¼ to ½. The market continued fairly strong and active in the face of some heavy profit taking. The talk on the floor was all about the New York city bond sale at 2 p. m. today and it was assured by the trading element that the buying from many quarters was on the expectation that all bonds would be sold at a slight premium.

The French premier, Eugene Clemenceau, today may have to face one of the most serious ordeals of his remarkable career. All the extreme left groups, with which he has been affiliated in the past, are now on the warpath, because as they allege, he has turned his back on his former associates and since May 1 has resorted to methods of repression characteristic of the reactionaries.

[COMMUNICATED.

ALL OVER NOW.

The election is over, the weather warm, and the controlling idea of everyone should be to try and cool off.

As a staunch supporter of Judge Charles E. Nicol, one of the defeated candidates in the recent primary, I recognize the fact that the people of this district have chosen Mr. C. C. Carlin to represent them as the standard bearer of the Democratic party in November and no matter how I feel about the matter I entered the primary a Democrat and I am quite sure I came out just as loyal to the choice of the majority as I was zealous in my attempt to defeat him.

I have no hesitancy in saying I am proud of the support I gave Judge Nicol and even in defeat I have no regrets.

We should bear in mind one truth in connection with the late primary and that is this: No matter what effect the withdrawal of Mr. Ryan at the last moment had on the result I am convinced that it was not for the purpose of helping the Alexandria candidate.

What we friends of Nicol and Gordon should do is to put our shoulders to the wheel and like loyal Democrats bow to the will of the majority, take off our coats and proceed to roll up for Charlie Carlin the largest vote ever given under the new constitution.

There is no room for sulkers in the Democratic tent and the principles of this noble party will live on after its peerless leaders if today pass over the river.

Lets turn a deaf ear to the wail of the disappointed who want to cry fraud, mismanagement, etc., and lets refuse to be a party to advertising someone in an attempt to disrupt our party—one perhaps the forerunner of the republican party—an organization whose only hope lies in democratic weakness and disaffection—whose emissaries are ambushed seeking to pounce upon the lukewarm.

We recognize the fact that Mr. Carlin's success was in the aggressiveness of himself and friends—men who were with him with their whole heart, and who exerted their influence with telling effect. Mr. Carlin did no more than any other candidate did, except to perfect an excellent organization and unite his forces—one thing alone that helped toward the handsome victory.

The majority of the right-thinking friends of the defeated candidates I hardly believe indorse the lamentations of a disappointed constituent who may perchance have seen or expected a petty office at the successor's hands.

Get together Nicol and Gordon democrats and see to it that the will of the people expressed for C. C. Carlin June 19 is not thwarted at the polls.

I for one will stand for C. C. Carlin who I believe has been fairly and squarely elected.

FAIRFAX ITEMS.

Rev. F. A. Strother, who was sent from Hamilton, Loudoun county, from the late session of the Baltimore conference after a successful pasturate of four years to Fairfax Circuit is at present engaged in a village camp meeting at Ilda and up to the present there have been thirty-five persons professing faith in Christ and the meeting continues with unabated interest.

Married June 26, at the residence of Mr. Elton Holbrooks, of Fairfax, Va., Mr. Thompson D. Violett and Miss Minnie Lee, both of Fairfax county. The ceremony was performed by Rev. F. A. Strother using the unique and impressive ritual of the Methodist Church, while a wedding march was being played by Miss Wiley. The groom is a thrifty and highly respected farmer of lower Fairfax and the best wishes of many friends of both the contracting parties follow them.

The Board of Supervisors of Fairfax county has appointed Messrs. J. S. Pearson and C. Humphrey Ford to visit the Jamestown Exposition and properly distribute the pamphlet setting forth the historical and industrial features of Fairfax county.

Here's Good Advice.

O S. Woolever, one of the best known merchants of Le Raysville, N. Y., says: "If you are ever troubled with piles, apply Bucklen's Arnica Salve. It cured me of them for good 20 years ago." Cures every sore, wound, burn or abrasion. 25c at E. S. Leadbeater & Son's drug store.

MR. GORDON AND MR. CARLIN.

Mr. James E. Porter, deputy clerk of Louisa county, is at the Jefferson. When seen last night, Mr. Porter was asked if it were true that Hon. R. Lindsay Gordon of his county, would be a candidate for Congress in the Eighth district next year.

"I cannot say about that," was the reply. "Mr. Gordon and his friends are now interested in the election of his successful competitor, Hon. C. C. Carlin, of Alexandria, to the Sixtieth Congress, and will not consider the next campaign until this one is over."

"We democrats up in Louisa are very proud of Mr. Gordon's fine run, and are ready to support his claims for public place if he shall offer himself again. "Meanwhile, however, as I said before, he and his friends are all for Mr. Carlin most earnestly, and if the latter should desire Mr. Gordon to do so, he will cheerfully take the stump in the interest of the democratic nominee.—[Richmond Times Dispatch.

A dispatch from Washington to the Richmond Evening Journal says:

"It is learned here on apparently good authority that Carlin leads Gordon, according to the latest figure, by only 123 votes. Gordon is reported to have said that he would yet be declared winner."

Mr. Carlin when seen today said he received fully 700 votes more than were cast for Mr. Gordon and about 900 more than Judge Nicol received.

While Mr. Carlin's figures may be rather in excess of his actual vote, there seems to be no doubt that he received a substantial plurality over both his competitors—such a plurality as to preclude the idea of his nomination being reversed by later returns.

The district democratic committee will meet in Washington this evening to canvas the votes cast in the recent primary and this will settle the matter definitely.

Mr. C. C. Carlin, the democratic nominee, will tonight entertain the members of the committee at dinner in Washington.

DEATH OF MR. AITCHESON.

Mr. George P. Aitcheson, who had been suffering for the past few days from typhoid fever, died at his home, No. 411 Duke street, at 7 o'clock this morning. The deceased was a son of Mr. Peter Aitcheson. He was a popular young man, and the announcement of his death will be read with regret by all who knew him. Mr. Aitcheson had for some time been an employee at the Washington navy yard. This is the third time death has entered Mr. Peter Aitcheson's home in recent years. Typhoid fever claimed the first victim and the same dreaded disease has laid low the third son. The striken family have the sincere sympathy of their many friends and acquaintances. Mr. Aitcheson was a Past Master of Andrew Jackson Lodge of Masons, a member of Mount Vernon Chapter, Royal Arch Masons, and Old Dominion Commandery, Knights Templar. He was a member of the Bachelor Club and the Veteran Friendship Fire Association. The deceased was about 35 years old. The funeral will take place at 5 o'clock Sunday afternoon.

LUNA PARK ATTRACTIONS.

Another large crowd from Alexandria, Washington and the surrounding country visited Luna Park last night. There is amusement for all at the resort, and the different features are greatly enjoyed. The chute, roller-coaster and circle swing afford exhilarating sport, while the moving pictures and illusions are most entertaining. The roller skating and dancing pavilions are well-patronized. A trip on the scenic river is regarded by many as enjoyable as well as the trip to Rockaway Beach. Conductor Crockett, who is stationed in front of the main entrance to the park, acts as train dispatcher at night. The trains for this city leave at short intervals, and should there be at any time a large number of people from this city awaiting transportation home and delays should occur to south bound trains, extra trains will be run to Alexandria for the convenience of people living here.

ANOTHER "PHENOMENON."

A darkey, who seemed to be greatly perturbed or a victim of conjuration, backed himself in front of a house in the southwestern section of the city last night and positively affirmed that the moon had the "jumps." He called the attention of several passersby to what he supposed was a luna eccentricity. Recently several persons have positively asserted that they saw a star in the southern heavens from which prongs protruded. William Coleman, colored, former candidate for Governor, Congress and the Legislature, is now making celestial phenomena a study. He may be able to explain these "signs" of the latter days by the use of his blue spectacles.

WOULD ESTABLISH BRANCH.

A prominent merchant of this city a few days ago received a letter from E. F. O'Brien, secretary and treasurer of the Roanoke (Va.) Knitting Mills. The writer states that he has been considering the feasability of establishing a branch of his plant in Alexandria provided he can secure the hearty co-operation of the business men of the city. Mr. O'Brien says that should a branch of the Roanoke Mills be established in Alexandria work can be given to every girl from 14 years old up. The recipient of the letter answered the same, describing the facilities offered manufacturers in this city, and will turn the letter over to the Chamber of Commerce.

BLUEMONT PARLOR CAR SERVICE.

The Southern Railway announces the operation of a Pullman parlor car service daily except Sunday between Washington and Bluemont on its trains Nos. 125 and 126. Connection leaves Alexandria (W. & O. station) for Alexandria junction 4:20 p. m.; returning, arrives at Alexandria at 9:10 a. m. This service will be of great accomodation to the many who now patronize the Washington & Ohio branch of the Southern Railway.

PERSONAL.

Mrs. Virginia A. Smoot and daughter, Miss Kate T. Smoot have returned from Europe where Miss Smoot has been under vocal instruction.

A pretty but quiet marriage took place Wednesday afternoon, when Miss Benetta Estelle Carver became the bride of Mr. John Calvin Davis. The bride was attired in white organdie, and carried a shower bouquet of Bride's roses. Immediately after the ceremony, Mr. and Mrs. Davis left for Jamestown for a few days. Alexandria will be the future home of the young couple. The bride is the daughter of Mr. and Mrs. Thos. P. Carver, of Brook Road, and the groom is a very popular employee of the Richmond, Fredericksburg and Potomac Railway.—[Richmond Times-Dispatch.

Mr. C. C. Carlin and family, who have been on a visit to Virginia Beach, have returned to their home in this city.

Mr. A. J. Hudson has returned from Johns Hopkins Hospital, Baltimore, where he has been under treatment for the past month. He is much improved in health.

Mrs. N. B. Wood continues critically ill at her home on south Pitt street.

Mr. Henry F. Robertson is at the Jamestown Exposition.

Miss Louise Howell is visiting relatives in Stafford.

ACCIDENT ON ELECTRIC ROAD.

The electric train which left this city at 11:30 this morning, in charge of Conductor Davis and Motorman Hammell, when between Four Mile Run and Addison struck a covered wagon being driven by a man named Bradley. The wagon was smashed, Mr. Bradley was thrown out of the vehicle and badly hurt about the head and was otherwise injured and his daughter, a young girl, was bruised and badly shocked. The horses were not hurt. The accident occurred at a crossing where other accidents have happened. Mr. Bradley without seeing the train attempted to drive his team across the track when, as above stated, the train struck the wagon knocking it and its occupants in all directions. The train was stopped and Mr. and Miss Bradley were taken to Washington and later sent to the Emergency Hospital, where they received surgical attention. Mr. Bradley was quite badly hurt but his daughter, it is said, is not seriously injured.

QUIT WORK.

The bricklayers' union of Washington, composed of more than 1,000 men, last night voted to throw its forces with the Building Trades Mechanics' Council, and instructed its buisness agent to visit today every building in Washington on which partial lookouts have taken place and where non-union men have been substituted for union men, and withdraw all bricklayers. The resolution adopted at last night's meeting was substantially the same as that adopted by the Central Labor Union declaring no bricklayers would be permitted to work on a building on which the open shop is in force. The carpenters' union, which has a membership of about 1,500, will hold a meeting tonight, and it is thought they will follow the course of the bricklayers. A number of Alexandria bricklayers are out of work by reason of the strike, and should the carpenters resolve to strike, others living in this city will become idle.

FUNERAL.

The funeral of the late James S. Douglas took place yesterday evening at 5:30 o'clock at his late home, 913 Cameron street, and was largely attended. Rev. William J. Morton, rector of Christ Church, officiated. The interment was in the Presbyterian cemetery. The pallbearers were Messrs. T. W Robinson, A. E. Smoot, C. W. Ashby, C. W. Bell, C. H. Yohe, and A. G. Uhler. The members of Alexandria-Washington Lodge of Masons, of which the deceased was a member, attended the funeral in a body and the interment was with Masonic honors conducted by Dr. Thomas B. Cochran, master of the lodge, and the other stationed officers.

DUDLEY'S ETHIOPIANS.

S. H. Dudley's Jolly Ethiopians will make their annual visit to this city next week, beginning Monday July 1. Mr. Dudley has tried during the past winter to enlarge his show, to make it the biggest and best attraction of its kind on the road, and by all appearances he has done so. Salem T. Whitney (Lucky Bill) still heads the list of fun makers. Prof. Williams' educated ponies, the best act of its kid in the east, and the Ethiopiscope with all of the latest and up-to-date moving pictures. There will be a grand ladies' and children's matinee Saturday at 2:30 o'clock.

ORGAN RECITAL TONIGHT.

A recital upon the new organ will be given at the M. E. Church South, tonight, by Prof. Bischoff, of Washington, assisted by Miss Mable Latimer, soprano; Miss Nellie O'Hare, contralto; Miss Minnie Heinrichs, violinist, and Mr. Lewis Corning Atwater, accompanist. The programme which has been arranged for the occasion is interesting, and an enjoyable evening is assured all who may attend. As has been stated there will be no charge for admission, but a liberal offering is requested in order to meet the necessary expenditure.

DRY GOODS AND NOTIONS SALE.

Attention is directed to the immense stock of dry goods and notions which is about to be disposed of by the Messrs. Bendheim. They recently purchased the stock of Bendheim & Hill, wholesale dealers, who have retired from business. The goods will be sold at sacrifice prices. The sale will open tomorrow, and all in need of goods in this line will be afforded an opportunity to purchase at remarkably low prices.

BASEBALL.

The Alexandria Atheletic Association baseball team will play the strong Congress baseball team of Congress Heights, D. C., on the old fair grounds tomorrow evening at 5:30 o'clock. The Alexandria line-up will be Kraft and Donaldson, battery; Conway, first; Snowden, second; Benzette, short; Pitts, third, and Gray, Wilkinson, Lucas and Brenner.

POSTAL PROMOTIONS.

The Postoffice Department has announced the following among the promotions of clerks in Virginia postoffices, effective July 1: Alexandria—One from $500 to $600, two from $600 to $800, one from $700 to $800 and one from $900 to $1,000.

The Tea at the Golf Club will be given by the Misses Fawcett tomorrow, Saturday, from 5 to 7 o'clock.

BIG SALE

L. E. UHLER,
JNO. S. HARRISON,
JACOB BRILL,
W. H. SWEENEY,
Committee on Light.

To the honorable Committee on Light.

Mr. L. E. Uhler, Chairman: Owing to the fact of there being an increase of 24 per cent. in the unaccounted for gas this year over the year previous, I think some explanation should be made as to the cause. I therefore submit the following report of gas manufactured and disposition of same during the first and last six months of past fiscal year:

From June 1st, to December 1st, 1906, there was manufactured at the Gas Works, 21,108,160 cubic feet of gas, of which 2,325,900 cubic feet was used by the city, and 14,555,600 cubic feet sold to consumers leaving unaccounted for 4,226,660 cubic feet or 20 per cent. of make.

From December 1st, 1906, to June 1, 1907, there was manufactured at the Gas Works 24,281,740 cubic feet of gas, of which 2,593,110 cubic feet was used by the city, and 19,918,900 cubic feet sold to consumers, leaving unaccounted for 1,839,740 cubic feet or 7.57 per cent. of make.

Percentage of total amount of gas made and unaccounted for during the first half of past year was 9.32 per cent. and last half 4.04 per cent.

In submitting this report I simply want to show that all of the unaccounted for gas does not escape through leaky street mains.

If will be seen by the report of the Clerk of Gas that the city lamps did not consume as much gas this year as has been charged to them heretofore. The reason for this decrease in consumption is that this year all the lamps were given each, what one lamp at the Gas Works consumed. This lamp at the works was lighted and extinguished regularly for one month and the meter reading taken daily and it was shown that the lamp only consumed 80 cubic feet per 12 hours. This is the only fair way to find what amount of gas the city gas lamps consume, unless there is a meter on each lamp. This decrease in the city consumption is one cause to which can be attributed the increase of unaccounted for gas.

Respectfully submitted,
F. W. LATHAM,
Superintendent.

OFFICIAL.

To the honorable City Council of Alexandria, Virginia.

Gentlemen: The following is the report stating the condition of the Gas Works and Gas Mains as required by law:

The Gas Plant is in first class condition and equipped with modern benches and machines necessary for the manufacture and purification of illumating gas, and if the consumption increases fifty (50) per cent. the plant could meet the demand.

The street mains are in good condition considering the fact that some of the street mains now in use are the same that were used when gas was first introduced in the city.

The following is the number of feet of street mains laid during past years ending May 31, 1907, the cost not being given, as it appears in the report of the Clerk of Gas:

408	feet 6 in.	main on north Fairfax	street.
233	" 6 "	" " Lee	"
372	" 4 "	" " Orenoco	"
183	" 2 "	" " Gibbon	"
300	" 6 "	" " Cameron	"
2280	" 6 "	" " King	"

All of this work is new mains with the exception of the Cameron street main which takes the place of old "3" line, and the King street main being a double line and taking the place of old "4" single line, one-half is considered to be new.

In conclusion I wish to repeat what has been said by competent gas engineers who have visited the plant recently, that Alexandria has one of the best equipped as well as one of the best paying gas plants of its size in the South.

Respectfully submitted,
F. W. LATHAM,
Superintendent.

Wheat Above Dollar Mark.

Wheat yesterday went above the dollar mark in Chicago, the September option selling on the floor of the Board of Trade to $1 and the December delivery for $1 03½. The sharp advance was unexpected to the majority of traders, and it came with startling suddenness.

The advance was caused by the report of a statistician who last April estimated that the winter wheat crop would amount to 325,000,000 bushels. This estimate was based on the expectation that Kansas would produce 60,000,000 bushels. A supplemental report was issued by the statistician, declaring that the crop will probable fall 10,000,000 bushels below this amount, because of the damage sustained in Kansas.

This statement caused shorts to cover actively, and as there was but little wheat for sale, the price advanced rapidly. Much of the advance was lost because of profit-taking sales, the final quotations for September and December being, respectively, 99 and 101½.

Salesman Murdered.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptons only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

Work to be Stopped.

A general order has been issued by the Cheapeake and Ohio Railway Company whereby every contractor engaged in work for the railroad must stop work on July 1.

Two thousand laborers and other employes in Virginia will be thrown out of work. J. Carpenter & Co. and the Matthews-Curtis Company, of Clifton Forge, and the Lane Bros'. Company, of Lynchburg, are the chiefs firms which will be required to quit work. The Lane Bros.' Company has been ordered, however, to continue its work between Richmond and Newport News until further orders. The main work on the line west of Hinton will be discontinued in accordance with the general order.

It is presumed that this shutting down of work on the Chesapeake and Ohio is mainly due to the high price and scarcity of labor, coupled with the fact that it is necessary for the railroads to pay fancy prices for new money on temporary loans of one and two years.

Badly Mixed Up.

Abraham Brown, of Winterton, N. Y., had a very remarkable experience; He says: 'Doctors got badly mixed up over me; one said heart disease; two said it was kidney; the fourth, blood poison, and the fifth stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health. One bottle did me more good than all the five doctors prescribed." Guaranted to cure blood poison, weakness and all stomach, liver and an, weakness and all stomach, liver and kidney complaints, by E. S. Leadbeater & Sons, druggist, 50c.

Can Grow Our Own Tea.

Any housewife who would like to grow her own tea in her kitchen garden, instead of going to the corner grocery store for it, will be shown how to do it by the Agriculture Department, which is about to publish a pamphlet on the subject. The pamphlet not only will give the necessary directions for raising the tea plants, but will tell how to dry and cure the leaves and the best way to make tea of them afterward. No special apparatus is required in carrying out the operations. Copies of the pamphlet can be secured without charge by applying to the Secretary of Agriculture.
